June 25th

Italian Street Painting Marin

Held annually in downtown San Rafael, California, our event showcases approximately 100 master street painters who turn the streets into an amazing gallery. The highlight of this year's event will be a large 3D painting of Rome's iconic Trevi Fountain. The painting will be created over 5 days by world-famous Master Madonnara, Julie Kirk-Purcell, and a team of featured young adult artists being mentored on anamorphic technique.
